Scope and Topics

The International Conference on New Technologies of Distributed Systems (NOTERE'2007: NOUvelles TEchnologies de la REpartition) is a bilingual (French/English) forum for engineers and scientists in academia, industry and government to present the recent advances and latest research result in the design, implementation, deployment, and evaluation of distributed system platforms, applications and architectures.

Submissions on any aspects of distributed systems are sought. Each submitted paper will be reviewed by at least three reviewers from the program committee. The topics of the conference include but not limited to:

- Internet Computing and Applications
- Web applications, Web services and Web-service composition
- Collaborative applications
- Operating systems and Middleware
- Distributed algorithms
- Existing paradigms revisited: object, component, aspect, agent
- Reconfigurable and reflective middleware approaches
- Context Awareness and self-adaptation
- Communication protocols and architectures
- Fault-Tolerance and dependability
- Sensor networks and Ubiquitous computing
- Peer to Peer
- Wireless and Mobile computing
- Distributed data management
- Policy-Based management
- Information assurance and security
- Formal methods and tools, UML/sys UML

About the conference

Following the past conferences in this series (Pau, Montreal, Paris, Saadia, Gatineau, Toulouse), the 7th edition of NOTERE will be Held in the beautiful city of Marrakesh in Morocco. Highlights of the conference will include a high quality technical program, invited speakers, tutorials and workshops in conjunction with the conference. For more details please refer to the conference web site: <http://www.notere-conf.org>

The best papers will be submitted to the international journal: "Annales des Télécommunications".

Deadlines

Submission (long and short papers): **January 12, 2007**
Notification to authors: February 16, 2007
Final version due: March 30, 2007
Date of the Conference: June 6-8, 2007

Paper Submissions

Authors are invited to submit original contributions written in French or English using an electronic **PDF** or **MS-Word** formats via the conference web page at

<http://www.notere-conf.org/notere2007-openconf/>.

Two types of submissions using [Hermes Format](#) are possible:

- Long papers, up to 12 pages
- Short papers, up to 6 pages

Every paper should mention on its first page the title, authors' names and affiliation, an abstract and a list of keywords. For further details, please consult the Web site.

Workshops

Considering the Morocco's booming economy and the development of its Information and Communication Technology sector, the workshops in conjunction with the conference will discuss problems of a particular interest such as: E-government, Business Process Management for Outsourcing, Wireless Sensors Networks, and Mobile Technology. For more details on the workshops please consult the Web site: <http://www.notere-conf.org>
